EXPERIENCE

Full-Stack Developer Intern at Collab (1 year) :

- Developed a prototype of the company's original product using React.js, Tailwind CSS, Express.js, and MongoDB.
- Conducted regular meetings with investors, presenting Monthly Performance Reports (MPRs) and providing progress updates on the product.
- Designed responsive and modern UI components while integrating backend APIs for real-time data operations.
- Implemented JWT authentication and managed secure user sessions.
- Configured Google Analytics for performance tracking and user behavior insights.
- Deployed full-stack applications on Vercel.
- Collaborated with cross-functional teams to align product development with business goals.
